

FRV 30 Hard Surface Cleaner

The FRV 30 is a patented 12" (300mm) hard surface cleaner that provides an industry first: simultaneous cleaning and waste water suction without the need for a vacuum! Utilizing Kärcher's patented Power Nozzles the FRV 30 cleans up to 10 times faster than using a pressure washer alone and features a heavy-duty ceramic bearing for superior life. Constructed of durable polyethylene, the plastic cover includes an integrated ergonomic handle and flexible connection joint that allows the high-pressure wand to connect directly to the unit without needing any adapters. Furthermore the non-marking castor wheels and removable splash guard make the unit ideal for indoor and outdoor applications.

The FRV 30 is the perfect tool for hard surface cleaning!

- 12" Surface Cleaner with Venturi Waste System
- No Need to Vacuum!
- 1,885 – 3,625 PSI (130 – 250 bar)
- 2.7 – 4.4 GPM (600 – 1,000 LPH)
- Maximum Water Temp 140°F (60° C)
- Delivery Waste Water Height: 5' (1.5m)
- Delivery Waste Water Length: 49' (15m) max
- Only weighs 7.7 lbs (3.5 kg)

3-Non-Marking castor wheels

Heavy Duty Ceramic Bearings

Polyethylene Cover with Integrated Handle

Easy Connection for Standard Kärcher Wands
